

## APPENDIX

## Changes to Specification:

The following is a marked-up version of the amended paragraph:

[0070] The present invention also provides a light shielding film that includes a metal layer formed of a refractory metal in the form of a simple substance or a refractory metal compound; and a protection~~barrier~~ layer formed of a refractory metal or a refractory metal compound which is disposed on at least one of surfaces of the metal layer so as to protect the metal layer from oxidation.

## Changes to Claims:

The following is a marked-up version of the amended claim:

31. (Amended) A light shielding film, comprising:
- a metal layer formed of a refractory metal in the form of a simple substance or a refractory metal compound; and
  - a protection~~barrier~~ layer formed of a refractory metal or a refractory metal compound which is disposed on at least one surface of said metal layer so as to protect said metal layer from oxidation.
